WISNIEWSKI: SPEAKER ROBERTS' LEADERSHIP JUST WHAT NEW JERSEY NEEDED IN DIFFICULT TIMES

(SAYREVILLE) – Assemblyman Deputy Speaker John S. Wisniewski (D-Middlesex) today released the following statement after Assembly Speaker Joseph J. Roberts Jr. (D-Camden) announced he won't be seeking re-election:

“Joe Roberts and his outstanding leadership have been exactly what New Jersey needed in these difficult times.

“His constant focus on property tax relief, improving the lives of our most vulnerable residents and combating the global recession will improve the lives of New Jerseyans in more ways than can be measured. His foresight and service have been tremendous.

“The Speaker’s efforts to help those suffering from autism and developmental disabilities will especially bring lasting benefits to many children and families, and will be a proud legacy.

“I will miss his leadership and am saddened to see him leave. He was, when all is said and done, a great example of what a legislator and public servant should strive to become.

“But our immediate focus must be on ensuring continued Democratic success, and I am confident the Speaker’s guidance will make that happen in the coming months.”
